ON

DESTINATION MOON

SHOW OF AERIAL ACROBATICS & MIME

“DESTINATION MOON” is a imaginary journey towards the moon...

The protagonist, who seems to have stepped out of a silent film, transform the stage into an oniric space between the earth and the sky, with her view of life. Our aerial mime, romantic and old-fashioned, on the back of strange bicycles, shares her adventures both comic and surreal, introducing her with posters in the greatest tradition of classical mime. All under the eye of the calm regard of the moon.

The show "Destination moon" is born of the meeting between different expressive techniques : the spectacular aerial acrobatics of the tissue, the poetry of mime and the comedy of clown.

The performance "destination moon" is a refined, unique, fun show for publics of all age.

Adapt for both open place (events in town place, animations, festivals...) and closed place (theater and private festival..),

The stage of "Destination moon" could even been a tree in a park or in the centre of a public square, the balcony of a medioeval castle, or an arcade of a porch, coloring whichever events with a magic tint and unforgettable atmosphere.
